Try these

1. Use Pigpen Cipher code and write the code for your name _____and your chapter names

   (i) LIFE MATHEMATICS (ii) ALGEBRA

   (iii) GEOMETRY (iv) INFORMATION PROCESSING

2. Decode the following Shifting and Substituting secret codes given below. Which one is easier for you?

   (i) Shifting method:- M N S G H M F H R H L O N R R H A K D

   (ii) Substituting method:-

3. Write a short message to a friend and get him to decipher it.(use either shifting or substituting code method)

Exercise 7.3

1. Fill in the blanks **(Use Atbash Cipher that is given in code 3)**

   (i) G Z N R O = _____

   (ii) V M T O R H S = _____

   (iii) N Z G S V N Z G R X H = _____

   (iv) H X R V M X V = _____

   (v) H L X R Z O H X R V M X V = _____

2. Match the following **(a = 00..... Z= 25).**

   (i) mathematics - (a) 18 20 01 19 17 00 02 19 08 14 13

   (ii) addition - (b) 03 08 21 08 18 08 14 13

   (iii) subtraction - (c) 12 00 19 07 04 12 0019 08 02 18

   (iv) multiplication - (d) 00 03 03 08 19 08 14 13

   (v) division - (e) 12 20 11 19 08 15 11 15 02 00 19 08 14 13

   G8W5R5

3. Frame Additive cipher table **(key = 4).**

4. A message like **"Good Morning"** written in reverse would instead be **"Doog Gninrom".** In the same way decode the sentence given below:

   "Ot dnatsrednu taht scitamehtam nac eb decneirepxe erehwreve ni erutan dna laer efil."
