spot, on the work will be marked with Prussian blue. The high spots are scrapped down by giving the scrapped down by giving the scraper a small circular motion. There are three different types of scrapers according to its shape, they are;

1. Flat Scraper
2. Triangle Scraper
3. Half-round Scraper

FLAT SCRAPER

The flat scraper is the most common type and has the cutting edge at the end. It is used to produce a perfect flat surface. It is available in different lengths ranging from 200mm to 250mm.

TRIANGULAR SCRAPER

The triangular scraper has three cutting edges. It is used to scrape round or curved surfaces and to finish sharp corners free from burrs.

HALF ROUND SCRAPER

The shape of half round scraper is like a half round file. They are used to scrape round or curved surfaces.

MAINTENANCE OF SCRAPERS

1. The cutting edges of the scraper should always be kept sharp.
2. It should be kept in a special case or wrapped in a piece of cloth when not in use.
3. It should be used for no other purposes other than scraping.

2.10 MARKING TOOLS

In addition to the measuring instruments, some tools are used to make marking on the work pieces and to scribe lines on them. They are known as marking tools.

Scribing is a very important action in making a component. Lines are to be drawn on the work piece according to the design. These lines are drawn with reference the contours of the work preferably at right angles or with reference to a certain datum line. The position of these edges or the position of the datum line may be determined from the drawing which is necessary for each job.

Effects of Poor Marking

1. Waste of job material.
2. Wastage of time.
3. Leads to loss because of the production of inaccurate products.
4. Consequent transporting expenditure
5. Earning bad name in the industry.

Guideline of Good Marking

1. Drawing should be correctly understood.
2. Marking tools should be kept ready.
3. Proper marking tools should be used.
4. Scribed lines are checked for correctness before punching.
5. Selection of punches should be done properly.

Types of Marking Tools

Important marking tools are given below

1. Steel Rule
2. Divider
3. Punches
4. Try Square
