PART C

Mark 5

Answer the Questions not Exceeding one page

1. Explain the method of preventing an electric shock?
2. Explain the properties of a conductor?
3. Compare magnetic and electric circuit.
4. What are the advantages of digital energy meter?
5. Explain about auto transformer?
6. What are the types of single phase motor?
7. Explain the various properties of engineering materials?

PART D

Mark 10

Answer the Questions not Exceeding two page

1. Explain the Kirchoff's laws?
   (or)
   Explain in detail about Lithium ion battery with diagram?
2. Explain the process of emf generation in DC generators?
   (or)
   Explain Half-wave rectifier with neat circuit diagram.
