Q A

PART B

Mark 3

Answer the Questions in Briefly:

1. What is called as a conductor?
2. What are the types of conductor?
3. What is called as an insulator?
4. What are the types of insulators?
5. Define current.
6. Define voltage.
7. Define Resistance.
8. What is called Electromotive force (EMF)?
9. What is called Potential Difference?
10. Explain the term 'Electric power'.
11. Define ohm's Law.
12. Voltage of circuit is 240v and 12 A current is flowing through it. Find the value of Resistance.
13. Explain 'open circuit'.
14. Two resistance 3Ω and 6Ω are connected in parallel Voltage of the circuit in 240v. Find the value of total resistance.
15. What is called Work?
16. Explain the factors on which the capacity of condenser depends.
17. Define 'capacitance' of a capacitor.
