e) Prefixes and Suffixes

"Her silver locks were scattered untidily over her pale, puckered face, and her lips constantly moved in **inaudible** prayer."

In the above sentence, the word 'inaudible' is formed by adding the prefix **in-** to the root/base word 'audible'.

A **prefix** is a letter or a group of letters which is added to the beginning of a root word in order to modify it. Usually, the new word formed is the opposite of the given word.

In the above sentence, we also come across the word 'constantly'. Here the suffix **–ly** is added to the root word 'constant'.

A **suffix** is a letter or a group of letters added to the end of a root word. By adding suffixes, the grammatical function of the word changes.

Words that are derived or formed from the base word by adding prefixes and suffixes are called **derivatives**.

Form two derivatives from each of the following words.

e.g. honest- dishonest, honesty

manage	differ	beauty
peace	arrange	collect
approve	narrate	class
