f. Transformation of Sentences

Sentences can be of three types – Simple, Compound, Complex. A simple sentence has one independent clause (A clause is a group of words with a subject and a verb). A Compound sentence joins two or more number of independent clauses. A Complex sentence has one independent clause and one or more dependent clauses.

Subordinate conjunctions such as 'because, since, although, when, while, where, which, if, unless, as, that, after' etc. are used to connect Independent Clauses with the Dependent Clauses in Complex sentences.

Coordinate conjunctions such as 'but, and, or, yet, so' etc. are used to connect the Independent Clauses in Compound sentences.
