Unit -6 (Supplementary)

Listen to the views of a leading economist R. Azhagarasan about EMI in an interview.

"We live in a world where everyone likes to lead a comfortable and luxurious life, though our salaries are not enough to meet our needs. In such situations, the EMI seems to be the only option. It helps people pay for the expensive things, they have purchased, in parts as instalments. It gives monetary power to buy expensive things, beyond the capacity of a common man. Without EMIs, many people will never be able to buy such luxury articles. The scheme proves beneficial for people in purchasing a house and other essential appliances and accessories. It also has some negative and unavoidable results. If people are not able to pay their EMIs on time, they have to keep on paying the loan amount for years together with interest. They may face serious problems such as penalty for default, repossession of the purchased items and might even be subjected to legal punishment. Sometimes, people tend to buy things that are not at all necessary. This may lead them into never-ending debts. Hence, people should learn to spend within their means."
