WRITING

A. Note-making

Note-making involves the fundamental skills of reading and writing.

We make notes to record the important points of a text for future reference.

Note-making is a study skill that helps to make notes of important points from a long text. It is particularly useful to store and retrieve information in the form of a summary.

The Process

- First, the main points and supporting details should be identified. The main information should be condensed and organised in a systematic way.
- To avoid difficulty in recollecting information, symbols or abbreviations should be used while making notes. But these should be clear enough to recall or understand later.
- Notes need not be in complete sentences.
- Notes should be shorter than the original text.
- Main points and supporting details should be clearly distinguished.
- Functional words like articles, relative pronouns should be avoided.
- Headings and sub headings should be numbered.

Different formats as applicable to the paragraph can be used to make notes. Two sample formats are given below.
