21.5 Alcohol Abuse

The consumption of alcohol is a social evil practiced by the wealthier and poorer sections of the society. The dependence of alcohol is called **alcoholism** and the addict is termed as **alcoholic**. It is called **alcohol abuse**. Drinking of alcohol impairs one's physical, physiological and psychological functions.

Activity 2

Collect pictures of individuals with normal liver and alcoholic liver, compare and indicate the changes you find in them.

21.5.1 Harmful Effects of Alcohol to Health

Prolonged use of alcohol depresses the nervous system, by acting as a sedative and analgesic substance. Some of the harmful effects are

- Nerve cell damage resulting in various mental and physical disturbances
- Lack of co-ordination of body organs
- Blurred or reduced vision, results in road accidents
- Dilation of blood vessels which may affect functioning of the heart
- Liver damage resulting in fatty liver which leads to cirrhosis and formation of fibrous tissues
- Body loses its control and consciousness eventually leading to health complications and ultimately to death

21.6 Rehabilitation Measures for Alcoholics

Education and counselling: Education and proper counselling will help the alcoholics to overcome their problems and stress, to accept failures in their life.

Physical activity: Individuals undergoing rehabilitation should be channelized into healthy activities like reading, music, sports, yoga and meditation.

Seeking help from parents and peer groups: When a problematic situation occurs, the affected individuals should seek help and guidance from parents and peers. This would help them to share their feeling of anxiety, wrong doing and get rid of the habit.

Medical assistance: Individual should seek help from psychologists and psychiatrists to get relieved from this condition and to lead a relaxed and peaceful life.

Alcohol de-addiction and rehabilitation programmes are helpful to the individual so that they could get rid of the problem completely and can lead a normal and healthy life.

21.7 Diseases and Disorders due to Lifestyle Modifications

Diseases are prevalent in our society due to our improper way of living, conditions of stress and strain. These diseases are non-communicable and affect the person who are suffering from particular symptoms. It is an impairment of the body tissue or organ, disturbances in metabolic function which require modification of an individual's normal life.

21.8 Diabetes Mellitus

Diabetes mellitus is a chronic metabolic disorder. In Greek (Diabetes – running through; mellitus- sweet). It is characterised
