

Covering concrete with polythene bags

Steam curing

Immersing in water tank

Cured by covering with wet sack

Covering the concrete with wet sand

Covering the concrete with, jute bags

4.3.8 Properties of Concrete

Cement concrete possesses the following important desirable properties:

i. It has high compressive strength.
ii. It is free from corrosion and there is no appreciable effect of atmospheric agents on it.
iii. It can be moulded into any form.
iv. It hardens with age.
v. It is proved to be more economical than steel.
vi. It binds rapidly with steel.
vii. It forms a hard surface, capable of resisting abrasion.
