

Pencil Eraser

Eraser

In, 1770 English engineer 'Edward Nairne' developed the first widely marketed 'rubber eraser.' Until that time it was known as 'gum elastic'

1.1.3.13 Drawing Sheet

Drawing sheets are of two types:

- Mill made paper
- Hand made paper.

Mill Made Papers are most commonly used for regular work and are available in different sizes and rolls .

Mill Made Paper

Hand-Made Papers have rough surfaces, pale in color and not used for regular work, but meant for charts.

Hand Made Paper

Sizes of Drawing Sheets: The drawing sheets are designated by symbols such as A0, A1, A2, A3, A4 and A5. In which A0 being the largest.
