CONTENTS

Exercise No	Name of the Exercise	Page No
	Basic Engineering Drawing	
1.	Lettering, Numbering and Dimensioning Practice	217
	i. Lettering and Numbering – Vertical Type, Inclined Type	
	ii. Dimensioning Practice – Aligned System, Uni-directional System	
2.	Dimensioning Practice in Aligned System and Uni-directional System using Auto CAD	223
3.	Symbols for Building Materials and Doors	226
4.	Symbols for Electrical and Sanitary Fittings	227
5.	Foundation – Cross Section	228
	i. Load Bearing Wall Foundation	
	ii. Isolated Footing	
6.	Foundation Cross Section using Auto CAD	231
	i. Load Bearing Wall Foundation	
	ii. Isolated Footing	
	Building Materials	
7.	Determine the Normal Consistency for the given sample of Cement	235
8.	Determine the Initial Setting Time for the given sample of Cement	237
9.	Determine the Fineness value for the given sample of Cement	239
10.	Determine the Voids ratio for the given Sand sample	241
11.	Determine the Porosity for the given Sand sample	243
12.	Determine the Bulk density for given Sand sample	245
	Building Construction	
13.	Setting out of Foundation for Single Room Building	247
14.	Construct a Brick Masonry (one brick thickness) in English Bond	249
15.	Construct a Brick Masonry (one brick thickness) in Flemish Bond	252

Note:

Atleast ten experiments are to be conducted depending upon the availability of laboratory and equipments in schools. (Ex. No 2 and 6 are compulsory)
