9	An axis line or outline should never be used as dimension line. But the axis line may be used as extension line.		10	Centre line should not be used as a dimension line.		11	Do not repeat the same dimension in different views.		
12	Dimension line should be drawn atleast 12 mm away from the outline and from each other.		13	Arrowheads should touch the Projection lines.		14	Notes should always be written horizontally.		15	Dimensions should be given to finished surfaces rather than rough surfaces.
