Father : Life is possible only on the Earth because of the presence of **land, air** and **water.**

Imayan : Oh! I see. What is the distance between the sun and the earth?

Father : The distance between the sun and the earth is nearly 150 million kilometres.

Imayan : Say some more interesting facts about Planets Dad....

Father : Mercury and Venus lie near to the sun. Next to Earth is Mars, Jupiter, Saturn, Uranus and Neptune. The planets nearer to the sun are very hot. The planets away from the sun are very cold. **Mercury** is the **smallest** planet. **Jupiter** is the **largest** planet.

Venus is called **Earth's twin. Mars** is described as the **Red planet. Earth** is called the **Blue planet. Saturn** is the **Ringed planet.**

Imayan : Wow! Amazing! Where do we live on the Earth?

Father : We live on the surface of the Earth. It is made up of 7 continents and 5 oceans.

Imayan : 7 continents! What are they?

Father : Listen. They are:

Asia, Africa, North America, South America, Antarctica, Europe and **Australia.**

Imayan : Which is the biggest continent?

Father : The **Asia continent**, where we live is the **biggest** of all. **Australia** is the **smallest** one. Antarctica is a snow covered landmass.
