Asia

Asia is the world's largest continent in size and population. The world's two most populous countries, **China** and **India** are in Asia. The Mount Everest which is in the Himalayas, is the highest point on the earth. It is located in Asia. Asia is the birth place of great ancient civilisations: **Indus civilisation, Chinese civilisation** and **Mesopotamian civilisation.**

Himalayas

The Great Wall of China

The Great Wall of China is the only man made structure that can be seen from space.

Millions of years ago, the seven continents of the world were joined together as a single huge landmass called **Pangaea.** But it slowly broke apart and separated as seven continents.

Some other countries in Asian continent are **Japan, Singapore, Malaysia, Saudi Arabia, Sri Lanka, Nepal, Pakistan, Maldives,Philippines, Afghanistan, Thailand and Indonesia.** Now let us learn more about our country which is the part of Asia.
