4 **Subtract:**

(i) 3 kl from 15485 l

(ii) 15 kl from 20 kl

(iii) 345 ml from 5 l

5 **Multiply the following:**

(i) 3 l 200 ml x 8

(ii) 4 l 450 ml x 4

(iii) 5 l 300 ml x 5

(iv) 6 l 700 ml x 6

6 **Divide the following:**

(i) 18 l 240 ml ÷ 6

(ii) 20 l 600 ml ÷ 2

(iii) 21 l 490 ml ÷ 7

(iv) 25 l 350 ml ÷ 5

7 Kalaiyarasi bought 5 l 500 ml groundnut oil and 750 ml sesame oil. How much amount of oil did she bought in all?

8 In a fuel station there was 70 l 500 ml of fuel. How much amount of fuel will be left after selling 35 l 700 ml of fuel?

9 A pot contains 9 l 500 ml of water, how much amount of water will 7 such pots contain?

10 25 l 500 ml of milk is filled in 5 milk cans, how much amount of milk is filled in one can?
