5.3 Relation between Speed, time and Distance

Example

Raman reached 195 Km at the speed of 65 Km/hr. How much time did he travelled?

$$\text{Time} = \frac{\text{Distance}}{\text{Speed}} = \frac{195}{65} = 3 \text{ Hours}$$

Raman travelled 3 hours

Exercise 5.2

1. Answer the following:

S.No	Speed	Distance	Time (Hours)
i	35 Km/hour	280 Km	
ii	40 Km/hour	360 Km	
iii	45 Km/hour	315 Km	
iv	50 Km/hour	300 Km	
v	55 Km/hour	275 Km	

2. Wilson reached 240 Km at the speed of 60 Km/hour. How much time did he travelled?

3. Anbarasan travelled 350 Km at the speed of 70 Km/hour.Find the time taken for his travel.

4. Nazar travelled 360 Km at the speed of 90 Km/hour.Find the time taken for his travel.

5. Fathima reached 480 Km at the speed of 120 Km/hour. How much time did she travelled?
