Water Resource for Agriculture

There are no perennial rivers in Tamil Nadu. Tamil Nadu depends on Northeast and Southwest monsoon. Hence, agriculture in Tamil Nadu is dependent on ground water.

Central Ground Water Board (CGWB) monitors the level and nature of ground water.

Irrigation

Irrigation is the supply of water to land or crops for the purpose of agricultural production.

Types of Irrigation

L9M1W7

- Well Irrigation
- Canal Irrigation
- Sprinkler Irrigation
- Drip Irrigation

Well Irrigation

Well irrigation has been practised in Tamil Nadu for many generations. It is a less expensive type of irrigation.

Archaic Well irrigation

Modern Well irrigation
