Example 6.3

Write the following figures in fractions and say which is smaller?

(i) 

(ii) 

Solution

Fraction represented in fig(i) is $\frac{3}{4}$.

Fraction represented in fig(ii) is $\frac{1}{4}$.

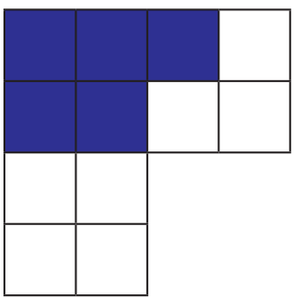

As the denominators in both the fractions are equal, checking the numerator, we get $1 < 3$.

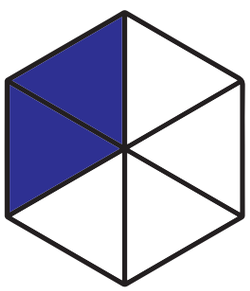

Therefore,

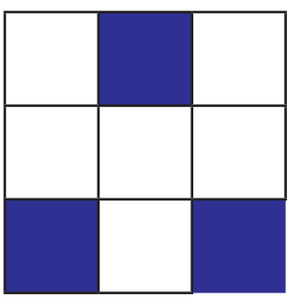

$$\frac{1}{4} < \frac{3}{4}$$

Exercise 6.1

1. Write the fraction shown by the shaded parts.

(i) 

(ii) 

(iii) 

2. Write the fractions for the following and find the numerator and the denominator.

(i) Sheela got 12 marks out of 20 marks in science.

(ii) Six fruits are rotten out of forty fruits in a basket.

(iii) In a colony of 50 houses, 17 houses are not occupied.

3. Find out which is greater in the following fractions.

(i) $\frac{5}{12}$ and $\frac{7}{12}$ (ii) $\frac{22}{48}$ and $\frac{17}{48}$ (iii) $\frac{11}{56}$ and $\frac{27}{56}$
