General points to be considered while purchasing equipment: – A thorough knowledge on the equipment is required for this task and can be purchased based on

- Menu
- Price
- Flexibility
- Purpose for which it is used
- Type of service offered
- Design and attractiveness
- Spare parts available for replacement
- Ease of maintenance
- Safety and space availability
- Source of supply

These basic factors help for smart selection of equipment. In simple words selecting equipment should be based on capacity, good quality, simple design ease of cleaning and budget availability.

The work areas are essential to perform various activities in food service operation. The flow chart (Figure 4.1) shows the work areas in food service outlets.

The equipment commonly needed for the work areas determine the success of food service operation.

DO YOU KNOW?

Lead Time

It is the time period between the order of equipment to a manufacturer and delivery of the equipment at a food service operation.
