Idioms

An idiom (also called idiomatic expression) is an expression, word or phrase that has a figurative meaning conventionally understood by native speakers. This meaning is different from the literal meaning of the idiom's individual elements. In other words, idioms don't mean exactly what the words say. They have, however, hidden meaning.

Example: "Kick the bucket".

The meaning of the expression is different from the literal meaning or definition of the word of which it is made. The meaning is used figuratively - "to die". Here are some interesting idioms.
