Subject Global warming

Dear Sir,

Kindly publish the following in the columns of your esteemed daily.

It is a matter of great concern that global warming has started showing its harmful effects on all of us and the environment. According to the findings of the government panel on Climate Changes, the consequences of environmental changes include an increased risk of floods and droughts in many regions. The global warming has caused decreased agricultural productivity due to weather changes.

Rain and snowfall have occurred in deserts. Snow is melting from glaciers due to global warming. This may lead to water crisis. The crisis is life threating all over the globe.

Regards,

Galen.
