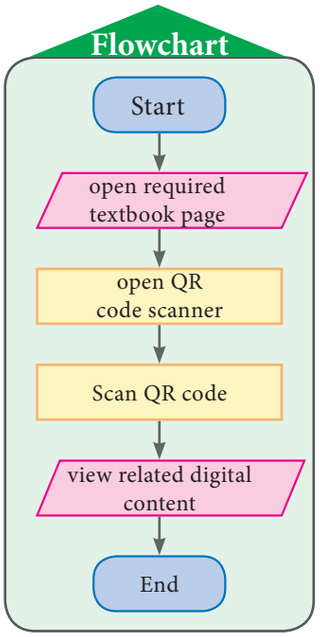
First, let us write an step by step process to scan QR code:

Step by Step process

First, let us write an step by step process to scan QR code:

1. Take correct textbook page on which required QR code were situated.
2. Open QR code scanner on your mobile or tab.
3. Scan QR code to view related digital content.
4. View digital content.



Now, let us write a sequence flowchart for this given in figure beside.

Example 6.1 Construct an appropriate flowchart for depositing a sum of money in an ATM using the instruction given below.

Input	Process		Output
1 Swipe your Bank Debit Card	2 Select "Banking"	6 Select "Cash Deposit"	10 Transaction Successful Collect your receipt
	3 Select Language	7 Select A/c type: "Saving"/ "Current"	
	4 Enter your ATM PIN	8 Insert Cash & Confirm Amount	
	5 Select "Deposit"	9 Amount is credited to your account
