In vertical, the upside movement is denoted ↑ and the downward movement is denoted ↓.

	The pre-image A is moved 6 units horizontally right side. No vertical movement. This translation is denoted by 6→
	Here the pre-image A is moved 5 units right side and then 1 unit upward. This is denoted by 5→,1↑
	Pre-image A moved 6 units to right and then 2 units downward. It is denoted by 6→,2↓ .
	Pre-image A moved 6 units to left and then 4 units downward. It is denoted by 6←,4↓

Try these

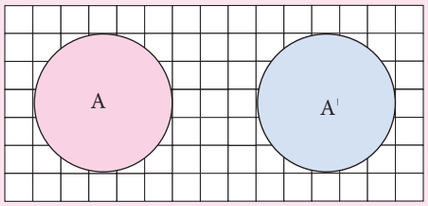

1. Translate this figure to 4 → 3 ↑

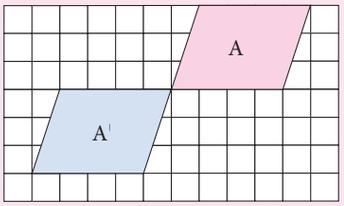

2. Translate this figure to 2 ↓ 1 ←

3. How is the pre-image A translated to image A' in each of the following figures?
