

Health and illness are defined according to individual perception. Health often includes conditions previously considered to be illness.

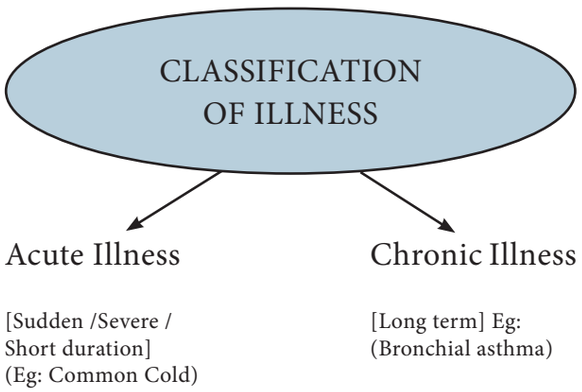

> "Health is the condition of being sound body, mind or spirit. Especially freedom from physical disease or pain"
>
> -Webster's Dictionary

For example: A person with epilepsy who has learned to control seizures with medication and who functions at home and work (office) may no longer consider himself or herself ill.

1.3 ILLNESS

Illness is an inability of an individuals' adaptive response to maintain physical and emotional balances that subsequently result in an impairment of functional abilities.

> **Proverb**
> **"Health is not Valued till Sickness Comes"**
> **"Health is Wealth."**

Travis's Illness – Wellness Continuum Model signifies that wellness is a process never a static state.
