5.4.3 Skin care.

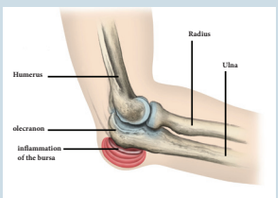

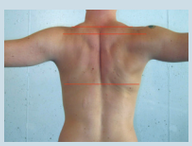

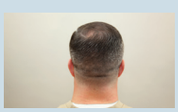

Skin care is the range of practices that support skin integrity, enhance its appearance and relieve skin conditions.

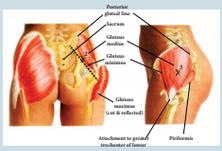

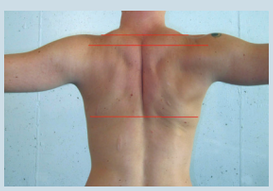

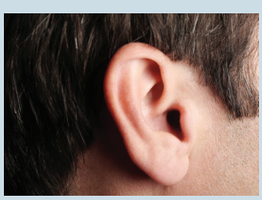

Importance of maintaining proper skin care.

1. Proper nutrition.
2. Avoidance of excessive sun exposure.
3. Appropriate use of emollients.
4. Use of cosmetics, botulinum, exfoliation, fillers, laser resurfacing, microdermabrasion, peels, retinol therapy.
5. Skin care is a routine daily procedure in many settings, such as skin that is either too dry or too moist, and prevention of dermatitis and prevention of skin injuries.
6. Skin care is a part of the treatment of wound healing, radiation therapy and some medications.

5.4.4 Areas which are likely to be affected

All or any of the ***protuberant parts*** of a bedridden patient may become liable to pressure sores.

Areas liable for pressure sores	Images
