| endless causes of allergies, ranging from airborne toxins to direct sunlight, from perfumes to dust, and so on. A common cause of allergies are the foods we eat. | | If that is impossible, there are drops that can be instilled to clean the eye. These are particularly useful for people who do not know the source of their allergy, or who suffer from seasonal rather than perennial allergies. |
| 4. **Dry Eye Syndrome:** Dry Eye Syndrome, or DES, happens when there is a malfunction in the tears. There are 3 possible symptoms with DES:<br>• Insufficient tear production.<br>• Poor quality tears.<br>• Tears that evaporate too quickly. |  <br>  | DES is incredibly common and usually causes severe irritation. In rare cases, it can lead to loss of vision. There are several ways to deal with DES, including:<br>• Eye exercises, such as no longer staring at screens and blinking.<br>• Different types of eye drops.<br>• Different types of eye gels.<br>• Punctal plugs. |
