STUDENT'S ACTIVITY

On an extremely hot day, several Scouts are sitting on a fence in front of their high school, watching a parade. One of the Scouts falls to the ground. His face is hot, dry, and flushed, and his pulse is exceptionally rapid. His left ear is torn and bleeding profusely.
How to handle the situation?

- Muscle cramps in lower limbs
- Pulse is rapid and weak
- Fainting.

Management

- Remove casualty to cooler place in fresh air
- Lay him down and loosen all clothing's
- Give him plenty of cold water with little salt in it (1 teaspoonful to ½ litre of water)
- If he /she is unconscious, then keep him in recovery position and shift to hospital immediately

7.13 HEAT CRAMPS

- Heat cramps, a type of heat illness, are muscle spasms that result from loss of large amount of salt and water through exercise.
