

STUDENT'S ACTIVITY

On casualty if you receive the person with a pair of punch marks and severe pain at the site of the bite. He shows redness and swelling around the bite. What do you think is going on?

- Wash the wound well and pat dry with clean swabs.
- Lightly compress the limb above the wound with a roller bandage.
- Immobilize the injury.

SCORPION STING

Stings are usually being painful rather than dangerous. Some people are allergic to stings and can rapidly develop the serious condition of anaphylactic.

Symptoms and signs

- Itching swelling
- Burning pain
- Increased sensation or numbness
- Lacrimation
- Salivation
- Nausea and vomiting
- Profuse sweating

Treatment

If the sting is on the extremity apply a tourniquet proximal to the site of the sting and release it every 5 to 10 minutes.

Apply ice pack on the region to slow down the absorption of poison.
