Hopscotches

The occurrence of artefacts such as dice, hopscotches and gamesmen, really reflects the lifestyles and the pastime activities of the ancient people.

The flat portions of the potsherds were generally grounded and the edges were smoothened to bring a round shape locally called 'sillu'. They were used by children as game pieces.

Keeladi Excavation on the banks of Vaigai river clearly suggests that urbanization happened in Tamil Nadu too around 6th century BCE as found in Gangetic plains.
