ICT Corner-1

Expected Result is shown in this picture

Step – 1 Open the Browser and copy and paste the Link given below (or) by typing the URL given (or) Scan the QR Code.

Step - 2 GeoGebra Work Book called "Polynomials and Quadratic Equations" will appear. There are several work sheets in this work Book. Open the worksheet named "Zeroes: Quadratic Polynomial".

Step-3 Drag the sliders a, b and c to change the quadratic co-efficient. Follow the changes in points A and B where the curve cuts the x-axis. These points are called Zeroes of a Polynomial.

ICT Corner-2

Expected Result is shown in this picture

Step – 1 Open the Browser, type the URL Link given below (or) Scan the QR Code. GeoGebra work sheet named "Algebraic Identities" will open. In the work sheet, there are many activities on Algebraic Identities.

In the first activity diagrammatic approach for $(a+b)^2$ is given. Move the sliders a and b and compare the areas with the Identity given.

Step - 2 Similarly move the sliders a and b and compare the areas with the remaining Identities.

ICT Corner-3

Expected Result is shown in this picture

Step – 1 Open the Browser by typing the URL Link given below (or) Scan the QR Code. GeoGebra work sheet named "Algebra" will open. There are three worksheets under the title Solving by rule of cross multiplication, Graphical method and Chick-Goat puzzle.

Step - 2 Move the sliders or type the respective values in the respective boxes to change the equations. Work out the solution and check the solutions. In third title click on new problem and solve. Move the slider to see the steps.
