e. Observe the three stages. What do you notice? Discuss with your partner and share your thoughts with the class.

Human beings are social animals but do not consider the other species on the earth! Let's spare a thought for the endangered species and keep them alive for the next generation.

Reading

a. Have you heard a story about the humming bird!

1. The story of the hummingbird is about this huge forest being consumed by a fire. All the animals in the forest come out and they are transfixed as they watch the forest burning and they feel very overwhelmed, very powerless, except this little hummingbird. It says, 'I'm going to do something about the fire!' So it flies to the **nearest** stream and takes a drop of water. It puts it on the fire, and goes up and down, up and down, up and down, as **fast** as it can.

2. In the meantime all the other animals, much **bigger** animals like the elephant with a big trunk that could bring **much** more water, they are standing there helpless. And they are saying to the hummingbird, 'What do you think you can do? You are too little. This fire is too big. Your wings are too **little** and your beak is so **small** that you can only bring a small drop of water at a time.'

3. But as they continue to discourage it, it turns to them without wasting any time and it tells them, 'I am doing the **best** I can.'
