Have you heard about "The Girl Who Silenced the World for Five Minutes."

She was an environmentalist and an excellent orator. Severn Suzuki who took the microphone at the United Nations Earth Summit in Rio de Janeiro in 1992 was just 12 years old. The following is an excerpt from her speech.

I'm only a child and I don't have all the solutions, but I want you to realise, neither do you! You don't know how to fix the holes in our ozone layer. You don't know how to bring salmon back up a dead stream. You don't know how to bring back an animal now extinct. And you can't bring back forests that once grew where there is now desert. If you don't know how to fix it, please stop breaking it!

Do not forget why you're attending these conferences, who you're doing this for — we are your own children. You are deciding what kind of world we will grow up in. Parents should be able to comfort their children by saying "everything's going to be alright", "we're doing the best we can" and "it's not the end of the world."

Task: Now it's your turn! Write a speech for the morning assembly, on endangered animals and ways to protect them.

c. Thiruthamizh, an active volunteer of NSS of your school, participates in a science exhibition. He writes his diary at the end of the day where he shares his experiences. Go through his diary entry and understand the format and the language of diary-writing.

Diary is a kind of personal document of an individual to pen down his/her emotions, thoughts or feelings on a daily basis. It can be created or designed for various needs - to write down a list, weekly plan, calendar events etc., apart from writing day wise journals.

14th Nov, (Wednesday)

10 p.m.

It was a great day, with my entire school preparing for the Earth Club activities. My friends and representatives of each class, along with NSS volunteers were all dressed prim and proper in their crisp uniforms. Tying festoons, twirling and twisting colour ribbons did turn out beyond control as it was a breezy day. Tangling and detangling the ribbons did irritate us then… but thinking of it now is hilarious! Legs were trod! Exhibits displayed serial lights and necessary connections for the animated exhibits all had to be unpacked!! Fixed - unfixed several times until the Chief Guest arrived to see the exhibits. On the whole, it was worth I all the trouble. Watching the mayhem around me, I really learnt the art of managing!

I have to thank my friends for making the day memorable
