After you go home from school, think of the day and enter it in the diary format .

d. Just as a passage gives us a lot of information, a pie-chart or bar graph will contain a lot of information. A picture paints a thousand words!

The process of presenting facts in a diagram is called encoding. Look at the pie-chart given below on the utility of tropical forests. Observe how it is decoded and understood.

*** Other Includes urbanization, dams, infrastrure, mining, non-agricultural fires**

Read the questions and answers given below.

1. What do the different sections in the pie-chart say?

The different sections referred in the pie-chart are pasture, logging, small-scale agriculture, large-scale agriculture and others.

2. What is the highest percentage of land used for?

The highest percentage of land is used for pasture.

3. What is meaning of logging?

Logging is the activity or business of felling trees and cutting and preparing the timber.

Task: Study the following posters and write your observations about the threats to animal and human life we face these days.

Project

i. Collect some pictures, slogans and stor ies about birds, its nesting habits, bird-baths and make a bird feeder.

ii. Complete the visually appealing poster in about 50 words.
