Task: Find below a list of words in our day to day speech used by patients, doctors, nurses and others related to medicine. Learn the correct pronunciation of these words and expressions. Your teacher will pronounce them for you. Mark the stress using the stress mark (') wherever necessary.

Word	Meaning
abdomen	belly or tummy
alopecia	going bald or hair loss
anemia	iron deficiency
delirium	feverishness
dementia	state of serious mental deterioration
epitasis	nose bleed
gingivitis	gum disease
hallucination	seem to see something that is not really there
neonatal	new-born
obesity	excess weight or fatness

b. English for computers

Read the conversation below between Hema, a data entry operator and Kannan, a student of Class XI, attempting to write an assignment using MS Word application.

Kannan: Good afternoon Madam! I'm Kannan. I am working on an important assignment and I would like to get it done at your centre.

Hema: Fine! Let's go to Page Set up first. Do you want it in A4? Letter, Legal or Custom Size?

Kannan: I've been asked to do it in A4.

Hema: Is the layout, portrait or landscape?

Kannan: What does that mean?

Hema: Well, portrait is the vertical layout, with the page height greater than the width, while landscape is the horizontal layout with the page width greater.

Kannan: I think portrait is OK.

Hema: Let me set the margins. Now, what about the font?

Kannan: My teacher has suggested that I use Times New Roman font, size 12.

Hema: That's the standard book form. Can I use bold/ italics wherever necessary for highlighting?

Kannan: Yes, Madam.

Hema: Now, we'll have to save.

Kannan: From the mouse nibbling my document?

Hema: Is that a joke, naughty boy?

Kannan: Well, Madam. Now, how do we save?

Hema: We'll have to go to File and then click on Save. Now give me a name.

Kannan: 'Std. XI Communicative English'.

Hema: Well, that's done. Now your assignment will be stored in the computer in that name.

Kannan: Can I have a print-out now?

Hema: Yes. Do you need a laser or ink-jet?

Kannan: What's the difference?

Hema: The out-put is faster and more impressive in laser. And it costs a rupee more.
