

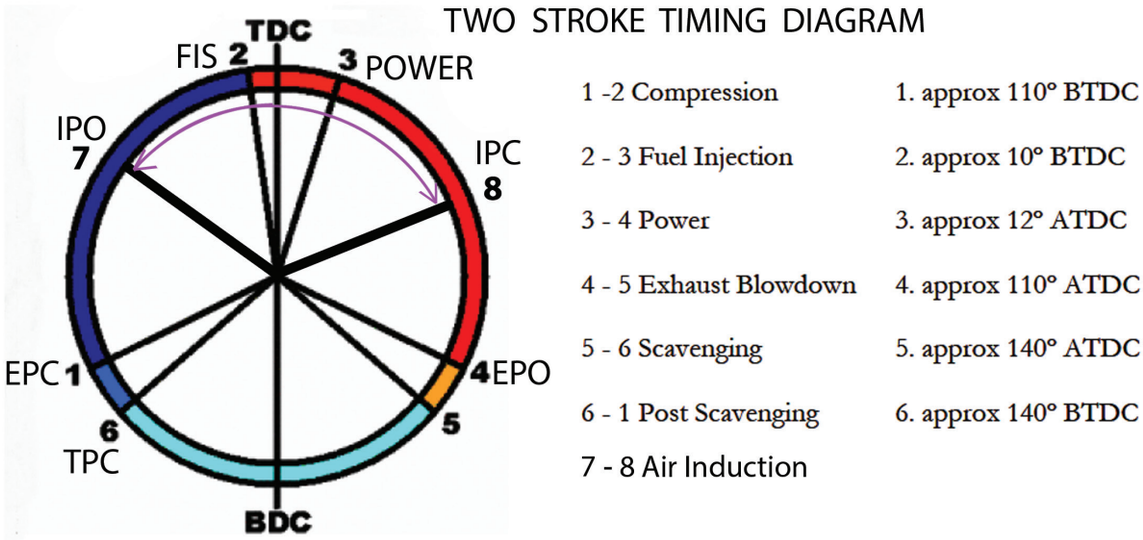

Fig 5.8(c) Port Timing Diagram of Two Stroke Diesel Engine

Student Activity

1. Students should visit the nearby workshops to study the types of petrol and diesel engines, and also to study the purpose of piston, connecting rod, crank shaft, camshaft, timing gear and flywheel.
2. Students should visit the nearby engine service centre and should prepare a sketch of engine block, crank case, cylinder head and gasket.

Glossary

Converted	-	மாற்றம்
Compressed	-	அழுத்துதல்
Combustion	-	எரியூட்டுதல்
Prolonged	-	நீடித்த
Surrounded	-	சுற்றுப்புறம்
Liner	-	உரை
Combustion Chamber	-	எரியும்அறை
Lubrication	-	உயவிடுதல்
Top Dead Centre	-	மேல்நிலை
Bottom Dead Centre	-	கீழ்நிலை
