6.11 Find and Replace

OpenOffice Writer has a Find and Replace feature that helps to locate for a text inside a document and replace it with another word. In addition to finding and replacing words and phrases, you can also use wildcards and regular expressions to perform advanced search. To search a word

- Click **Edit** → **Find & Replace** (or) **Ctrl + F**
- The Find & Replace dialog box appears as shown in Figure 6.27.

Steps to find and replace a text

1. Type the text you want to find in the **Search for** box

For Example: To search for a word "Bombay" in a document and replace with "Mumbai", enter the word "Bombay" in the Search for box

2. To replace the word with different text, type the new text in the **Replace with** box

Enter the word "Mumbai" in the Replace with box and

Click **Find** button , to start the search , the found word is highlighted

The first occurrence of "Bombay" is highlighted

3. To replace text, click **Replace** button.
