CHAPTER 7

INSERTING TABLES, OBJECTS AND PRINTING DOCUMENT

7.1 Working With Tables

A table is a grid with a specified number of rows and columns. A well-designed table can help readers to understand better what you are trying to convey.

7.1.1. Different Techniques To Insert Table

There are two methods to create a table :

- Using table Icon
- Using Insert Table dialog box

Using Table Icon

To insert a table quickly from the standard tool bar:

1. Place the insertion pointer where you want the table to appear.
2. Click the down arrow on the right side of the Table icon on the standard toolbar.
3. In the drop down grid, move the mouse to select the number of rows and columns for the table.
4. The table will appear at the location of the insertion pointer.

Using The Insert Table Dialog Box

To insert a table with more control over the settings and properties, use the Insert Table dialog box. To open the dialog box, click **Table → Insert → Table or Ctrl +F12.** The Insert table dialog box appears as shown in Figure 7.1:
