- You can now change the properties (fill color, line type, width, etc.) of the drawing object using the **Drawing Object Properties toolbar.**

- Click on **T** Icon to create a text box and type any amount of text which can be moved anywhere into the document.

7.4.4 Inserting Page Break

OpenOffice Writer inserts a page break automatically when the content exceeds a page, this is known as soft page break. Sometimes the user need to insert a page break manually, it is called as hard page break.

1. Place the insertion pointer in the document where the page break is to be inserted.

2. Select **Insert** → **Manual Break,** the Insert break dialog box appears as shown below in Figure 7.17.

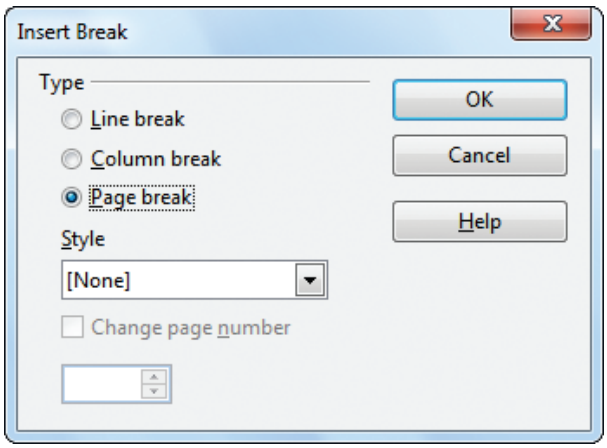

Figure 7.17 Insert Break dialog box

3. Under the type option choose Page break and click **OK** button .

4. A page break is inserted at the current location.

7.4.5 Inserting Word Art

WordArt is a feature in OpenOffice Writer which includes effects such as shadows, outlines, colors, gradients, and 3D effects that can be added to a word or phrase to make it more presentable and attractive.

To insert WordArt , the steps to be followed are :

- Click the **Fontwork icon** on the Drawing toolbar.
- Fontwork gallery window with various font work is displayed as in Figure 7.18.
- Double-click on the required Font work style, and type the required word or phrase and click OK button.
