Numbers Tab :

Several number formats like Category, Format, Language, Decimal places, leading zeros and Thousands separator. User-defined Format code is also applied. The main advantage here is that preview is available.

Cell Protection Tab :

In Open Office Calc, cells are protected against any accidental changes. Protection can be provided by means of a password. Authorization is given by entering the correct password. It is clear that the Cell Protection with a **Protected** attribute is only effective when the whole sheet is in protected mode.

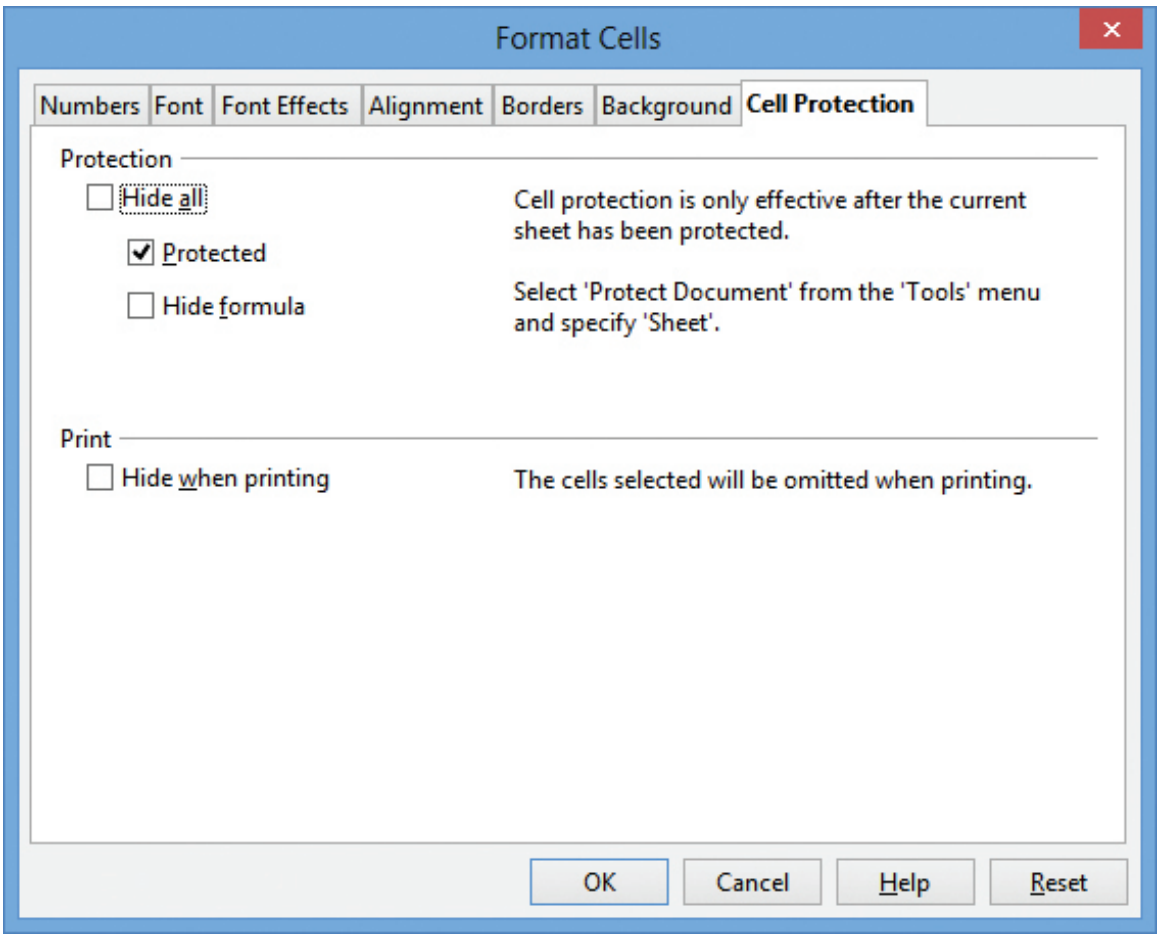

Figure 10.19 Format Cell - Cell Protection

1. Select the cells that you want to apply the cell protection feature..
2. Choose **Format** → **Cells** and click the **Cell Protection** tab.
3. In the **Protection** group, the **Protected** check box is enabled, click Ok button. This becomes effective only when password and confirm are entered through Tools → Protectd Document → Sheet(Refer Figure 10.20).
