

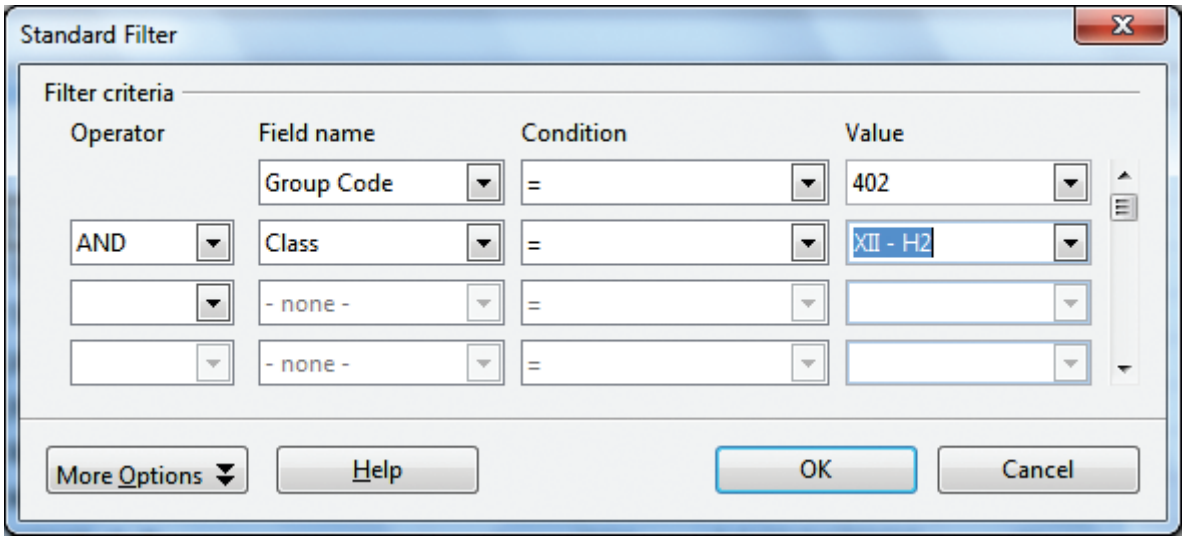

Figure 11.14 Standard Filter

Step 4: Click "OK"

- Now, the table displays only the records which match the given two criteria. Refer **Figure 11.15**.

To Remove Standard Filter:

- Select **Data → Filter → Remove Filter**

11.5 Applying Validation

Validation will limit the data to be entered in the selected row/column/cell. For example, in the student database, the maximum roll no is 50. Hence, if the user enters a roll no above 50, it should give an error message.

Step 1: Enter Roll No in a cell A1 and select the entire column (column A)

Step 2: select **Data → Validity,** the validity dialogue box appears. Select Criteria tab, Select whole numbers in the **Allow** field. It means only integer values are allowed. Fractional values are not allowed. In the **Data** field, select less than and in the **Maximum** field type 50. Refer **Figure 11.16.**
