## 12.7. Workspace

The Workspace has five tabs: **Normal, Outline, Notes, Handout** and **Slide Sorter**, as seen in **Figure 12.19**. These five tabs are called **View Buttons**. There are many toolbars that can be used during the slide creation; they are revealed by selecting them with **View → Toolbars**.

The actual Workspace section is below the View Buttons. This is where you assemble the various parts of your selected slide. Each view is designed to ease the completion of certain tasks.

**Normal view** is the main view for creating individual slides. Use this view to format and design slides and to add text, graphics and animation effects.

**Outline view** shows topic titles, bulleted lists and numbered lists for each slide in outline format. Use this view to rearrange the order of slides, edit titles and headings, rearrange the order of items in a list and add new slides.

**Notes view** lets you add notes to each slide that are not seen when the presentation is shown.

**Slide Sorter view** shows a thumbnail of each slide in order. Use this view to rearrange the order of slides, produce a timed slide show, or add transitions between selected slides.

**Handout view** lets you print your slides for a handout. You can choose one, two, three, four, or six slides per page from **Tasks pane → Layouts**. Thumbnails can be re-arranged in this view by dragging and dropping them.

### 12.7.1. Normal view

There are two ways to place a slide in the Slide Design area of the Normal view: clicking the slide thumbnail in the Slides pane or using the Navigator.

To open the **Navigator**, click the Navigator button in the **Standard Toolbar** or press **Ctrl+Shift+F5** and select a slide
