Same as inserting images, a dialog box will be opened. Select the audio or movie file from the specified location and click Open button. It will be opened in the slide as follows. **Refer Figure 13.29.** The movie or audio file inserted will be played during the slide show by clicking the mouse over it.

13.1.6. Inserting various animation effects to the inserted objects

Applying an animation effect

- In Normal View, open the desired slide.
- Select the text or object you want to animate.
- In the Tasks pane, choose Custom Animation **(Figure 13.30)**. Click **Add**. The Custom Animation dialog box appears.
- Choose an effect from one of the pages of this dialog box and choose the speed or duration of that effect.
- To choose the animation to be applied when the object is placed on the screen, use an effect, for example **Fly In** or **Dissolve In**.
- Use the **Emphasis** page to apply an effect that changes the font color or applies special effects to the text such as blinking text.
- To choose the effect to be applied when the object is leaving the page, use the **Exit** page.
