

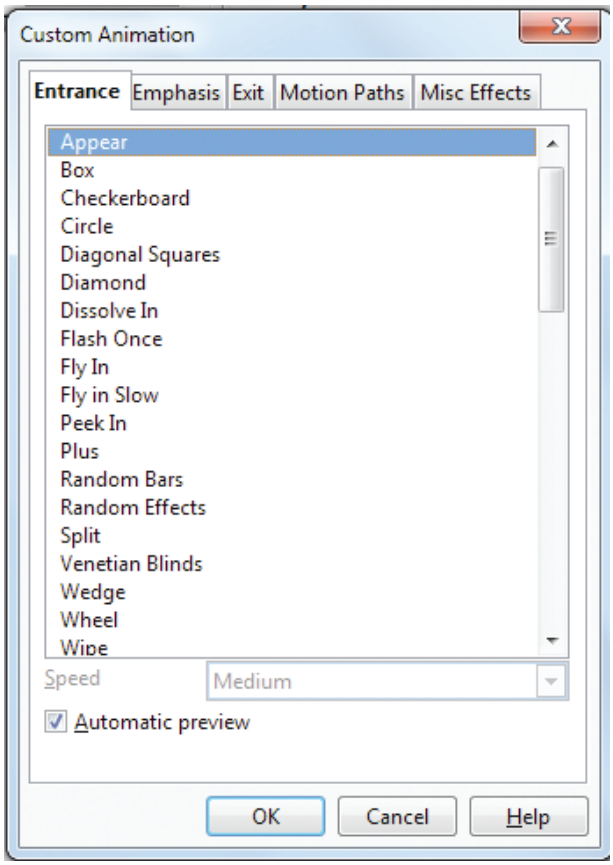

Figure 13.31 Custom Animation dialog box.

- If you want the object to move along a line or curve, select an animation from the **Motion Paths** page.
- Click OK to save the effect and return to the Custom Animation page on the Task pane. Here you can choose how to start the animation, change the speed, and apply some additional properties of the selected effect.
- Choices may vary depending on the selected object. For example, pictures and text have different Emphasis choices.

Starting an animation effect

You have **three choices** for starting an animation effect:

On click—the animation stops at this effect until the next mouse click.

With previous—the animation runs at the same time as the previous animation.

After previous—the animation runs as soon as the previous animation ends.
