the text is over written on the existing text. This is known as **Type over mode**. You can toggle between the insert mode and type over mode by pressing the **Insert Key.**

6.5 Select, Move and Copy text

6.5.1 Selecting Text

In any word processor, the text has to be selected for performing any operation like copying, moving, formatting etc. The text selection can be done in two methods:

i) Selecting the Continuous text.

ii) Selecting the Non-continuous text.

Selecting the Continuous text – To select the text continuously move the insertion pointer to the begining of the text,

- Hold the **SHIFT** key and drag the mouse across until the required text is selected and then release the **SHIFT** key.
- The selected text can be used for any operation.

Selecting theNon-continuous text- To select the text not continuous, move the insertion pointer to the begining of the text,

- Hold the **CTRL** key and drag across the required text is to be selected and release the **CTRL** key.
- The selected text can be used for any operation.

Selection by Different methods:

Selection using Mouse :

To select the text using mouse:

(i) Move the insertion pointer to the begining of the text

(ii) Hold down the **Left mouse** button and drag it across the text

(iii) Release the mouse button when the required portion of text is selected

(iv) The selected text will be highlighted.

Selection using Keyboard :

To select the text using keyboard :
