6.7.3Highlighting text

Highlighting is used to draw attention to important information in a text. Highlighting is beneficial because it first asks the reader to pick out the important parts, and then gives an effective way to review that information later.

Highlighting can be applied by selecting the text and click **Highlighting** icon ,the color palette is displayed, select the required color, and the text is highlighted. Highlighting can be removed by selecting the text and click **No Fill** from the color palette.

Note

Highlighting is to draw attention to important or key points in a document for easy reference by marking it with a different color.
