Example 6.1 Paragraph Alignment

6.8.1 Line Spacing

Line spacing determines the amount of vertical space between lines of text in a paragraph. By default, the lines are single line spaced. The easiest method to change the line spacing is to right-clickon the line and select line spacing from the pop up menu,the pop up menu provides three options single, 1.5lines or double from which the user can select the desired type(Refer figure 6.20).

To Change the line spacing using paragraph dialog box.

- Select the required text
- Select **Format → paragraph**
- The paragraph dialog box appears, click on Indents & Spacing tab
- In the line spacing drop down, select the required line spacing (there are seven different types of line spacing) and
- click OK button.
