

LET US WRITE

Let us learn to write a story with suspense.

What is the story about?	
Beginning	Describe the characters. Describe the place and time. Describe the event or problem.
Middle	What happens first, second and third? 1. 2. 3.
End	How was the problem solved?

Words that help you create suspense: suddenly, just then, in that moment, all of a sudden, silently, in alarm, scared, from the shadows, dark, unexpectedly etc.

Let us use these words to write a paragraph on "A day in the forest"

Suddenly in a distance, I noticed some paws on the mud. My head turned red with fear and I silently stepped back. Just then, I saw a big brown furry animal with green eyes coming out of the shadows. In that moment, I didn't know what I had to do. I screamed and ran. All of a sudden, I heard a howl behind me. I turned to see two wolves chasing me.

Now, why don't you try to write a story with suspense?
