India accounts for about 10% of road accident fatalities at worldwide. Road crashes have a threatening impact on Indian lives, growth and economy.

Causes for Road Accidents

Distracted driving

This is a larger threat and the leading cause for road accidents. It is the distraction of the driver, engaging in any other activity while driving. It may be talking over the mobile phone or texting message or engaging in any activities with attention diverted from driving.

Reckless driving

It is a major traffic violation of rules. It is defined as the mental state in which the driver purposely disregard the rules of the road.

Night driving

An extra alertness is needed while driving at night. The uncontrolled sleep, tiredness due to long drive, poor lighting on the road can cause fatal accidents.

Tailgating

Tailgating refers to a condition where a driver drives behind another vehicle without leaving sufficient distance between them. In this condition, if the vehicle in front of him, stops suddenly, his own vehicle will crash with it.

Heavy Traffic

Increase of vehicles on the road create heavy traffic jam and cause more pollution.
