

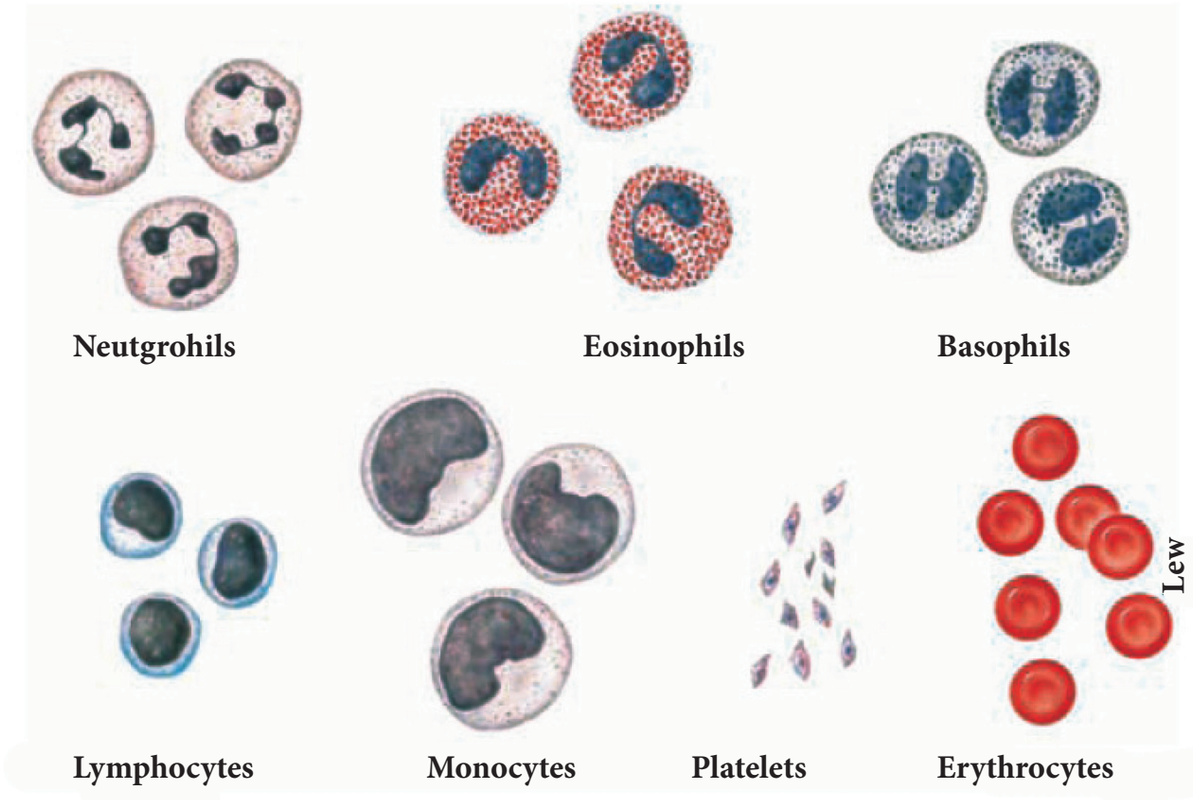

Figure 1.19 Blood cells : Leukocytes and thrombocytes (platelets) of blood are represented after staining process and erythrocytes represented without staining process.

The pH of important biological fluids is presented in the following table (Table 1.3).

Table 1.3 - pH range of the biological fluids

Sl. No	Biological Fluid	pH
1	Blood	7.35 - 7.40
2	Tears	7.20 - 7.40
3	Saliva	6.40 - 7.00
4	Gastric juice	1.50 - 3.00
5	Pancreatic juice	7.50 - 8.00
6	Interstitial fluid	7.20 - 7.40
7	Intracellular fluid	6.50 - 6.90
8	Urine	5.00 - 7.50
9	Cerebrospinal fluid	7.20 - 7.40
